

TACC were delighted to send a group from Child Bereavement UK based in Glasgow to attend the Scotland vs Costa Rica match at Hampden on Friday 23rd March 2018 as part of our My First Scotland Match programme.

Child Bereavement UK supports families and educates professionals when a baby or child of any age dies or is dying, or when a child is facing bereavement.

In 2013 the Big Fund awarded Child Bereavement UK a Third Sector Early Intervention Fund Grant to improve bereavement support initiatives for children, young people and their families in four areas of Scotland, deemed areas of deprivation. They began their work in Aberdeen, Dundee, Edinburgh and Glasgow and then funding was extended in 2015 to include West Lothian. They were then delighted to receive further funding to help to enhance bereavement capacity in Ayrshire, Lanarkshire, Fife, The Highlands, Orkney and Shetland. If you would like to find out more about CBUK please have a look at their website <https://childbereavementuk.org>

13 children attended the match along with family members and staff. All the children were given the new Scotland strip, a saltire and £10 to spend.

As always TACC are very grateful to the folks at the Scotland Supporters Club who provided us with match tickets and also a complimentary food voucher for each attendee. Their support is very much appreciated.
